

Biography

Kanseil are a Folk Metal project born in 2010 in Fregona, Veneto (Italy), named after Cansiglio highland and the beautiful forest that the highland hosts.

Kanseil match early medieval melodies, traditional folk sounds taken from all over Europe with death and black metal riffs, along with ancient-fashioned acoustic assembles creating, as a result, their own peculiar style.

Tzimbar Bint is the first, self-produced demo that Kanseil realized and it dates back to 2013. Along with the demo they started playing at several local events both in Italy and eastern Europe, sharing the stage with many others underground and international metal bands.

In 2014 the band was contacted by Nemeton Records and was very enthusiastic to join its roster; this took, in May 2015, at the release of their first full-length album Doin Earde.

From 2014 to 2016 Kanseil played more than 60 live shows, taking part in events joined by several national and international bands such as Korpiklaani, At The Gates, Folkstone, Enslaved, Omnia, Arkona, Manegarm and more.

Two years from the release of Doin Earde Kanseil started working at their second full-length album and, in January 2018, it got recorded at New Sin Studio (Loria, TV). On May 25, 2018, Kanseil presented Fulische via RockShots Records.
